

February 7, 1975

SENATOR KREMER: The second amendment is on line 12 after the word "road" and it provides that no water shall be allowed to accumulate on the roadway, or the traveled surface. The language that's used in the chapter 69, or 39, identifies roadway as being the area of the road upon which a vehicle travels and also includes the shoulder of the traveled part of the road. This amendment merely provides that water shall not accumulate on the traveled surface of the road or on the shoulder. The third part of the committee amendment . . . or the third committee amendment is on line 16 where the penalty, instead of being not less than 10 . . . or less than \$10 but not more than \$100, changes the \$100 to \$25. The committee thought that might be a little severe on a new program. The penalty that would be assessed would be not less than \$10 but not more than \$25, rather than \$100. I move for the adoption of the committee amendments.

PRESIDENT: Is there any discussion? Senator Mills.

SENATOR MILLS: Mr. President, members of the body, I serve on the Public Works Committee and I'd like to change the line 16 from 100 and delete 25.

PRESIDENT: Is this an amendment to Senator Kremer's amendment?

SENATOR MILLS: Yes.

PRESIDENT: Would you repeat it please, Senator Mills.

SENATOR MILLS: On the amendment, line 16, strike 100, delete and insert 25.

PRESIDENT: We'll stand at ease for a minute. Senator Kremer and Senator Mills are we talking about the same thing? Does your amendment do that Senator Kremer?

SENATOR KREMER: If I understood Mills, I would assume that his amendment does the same thing as the committee amendment provides for. Instead of a \$100 fine would be a \$25 fine?

PRESIDENT: Is that what you want to accomplish Senator Mills?

SENATOR MILLS: I want to delete \$25. Just like it is in the bill. The amendment says, line 16, strike \$100. I'm asking to delete the rest of the amendment and insert \$25.

PRESIDENT: The Clerk will . . . first of all read the pertinent section of the Kremer amendment and then read it as the Mills amendment to the Kremer amendment.

CLERK: Well Senator Mills, as I understand the amendment is as follows: to delete the last line of the committee amendment. What it would do is delete that portion dealing with line 16. Strike \$100 and insert \$25. Am I correct?
